Subject: FW: FY18 CA SAA contract

Good Morning Keith,

Just wanted to followup from the Supervisory Contracting Officer's email to you to make sure it is understood that since VA does not have a current FY18 contract in place with the state of CA, VA may not reimburse the state for any work performed after September 30, 2017.

We are currently preparing an email that will go to all of the CA school officials to notify them that VA is acting as the SAA, as well as considering a press release on the situation.

The Contracting Officers' Representative will make contact with you in regard to close out of the FY17 contract and to make arrangements for VA to obtain current school files and the transfer of pending work.

I would appreciate yours or Latanaya's acknowledgment of receipt of this email.

Thanks

Rob
